WHAT GOOD WILL ONE VOTE DO?

There are people in this wonderful land of ours who have never exercised their privilege to vote because they feel that one vote means nothing; that it will have no effect on the outcome of some key issue.

Have YOU ever felt that way?

For the skeptic, let's look at some of the effects of just one vote.

Thomas Jefferson was elected President by one vote in the electoral college. So was John Quincy Adams.

Rutherford B. Hayes was elected President by one vote. His election was contested and it was referred to an electoral commission. Again he won by one vote!

The man who cast that deciding vote for President Hayes was a Congressman from Indiana, a lawyer who was elected to Congress by a margin of just one vote. And that one vote was cast by a client of his who, though desperately ill, insisted on being taken to the polls to vote.

Just one vote gave statehood to Idaho, Oregon, Texas, Washington and . . . to California. Today all the millions living in these five states are Americans by just one vote.

From these examples you might get the idea that the one vote situation applies only to the past. Well, don't forget that the Draft Act of World War II passed the House by just one vote . . . and you can carry this one vote situation on and on.

The right to vote is precious and we must safeguard it. Don't forget that from now 'til November 8th!
